

MQTT

Fill out the broker information

The screenshot shows the MQTT Connection configuration form. A red box highlights the main configuration area. The form includes a sidebar with a list of connections, a main title 'MQTT Connection' with the URL 'mqtt://test.mosquitto.org:1883/', and a configuration section with fields for Name, Protocol, Host, Port, Username, Password, and toggles for Validate certificate and Encryption (tls). At the bottom are buttons for DELETE, ADVANCED, SAVE, and CONNECT.

Connections

- broker.hasanabs.com
mqtt://broker.hasanabs.com:1883/
- test.mosquitto.org
mqtt://test.mosquitto.org:1883/

MQTT Connection mqtt://test.mosquitto.org:1883/

Name: test.mosquitto.org

Validate certificate: ☒

Encryption (tls): ☐

Protocol: mqtt://

Host: test.mosquitto.org

Port: 1883

Username: _____ Password: _____

DELETE ADVANCED SAVE CONNECT

Fill the topic and then connect

The screenshot shows the MQTT Connection configuration form with the topic field filled. A red box highlights the main configuration area. The form includes a sidebar with a list of connections, a main title 'MQTT Connection' with the URL 'mqtt://test.mosquitto.org:1883/', and a configuration section with fields for Topic, QoS, and a table for topics. At the bottom are buttons for CERTIFICATES and BACK.
